PRoPL

Pearson Review of Progress & Learning (PRoPL)

Report Interpretation Guide
Grades K-2

2024-2025

Contents

K-2 PRoPL Overview

The Pearson Review of Progress & Learning (PRoPL) is a computer-based interim assessment intended to be administered three times throughout the school year to measure student growth. PRoPL covers a broad set of academic standards to provide information about what students have and have not learned. PRoPL is an untimed test, although most students complete a PRoPL assessment in about 35-40 minutes.

PRoPL is based on a common state summative assessment blueprint and covers a broad set of assessable academic standards. Because PRoPL is designed to support an interim assessment purpose, the PRoPL test blueprints are proportionately shorter than most summative assessments. PRoPL K-2 reading and math tests are currently fixed form or linear, with plans to make them computer adaptive in the future.

PRoPL is designed to provide scores for a specific content area (i.e., math or reading). In addition, PRoPL provides information by reporting category (e.g., Reading Informational Text or Numbers and Operations) and growth in student performance from one assessment to the next within a given instructional year.

K-2 Score Reporting Information

K-2 students will receive an overall scale score, performance level, and a reporting category profile measure for each PRoPL test taken.

Scale Scores and Performance Levels

PRoPL reports on overall content area performance using scale scores and performance levels. Scale scores are raw scores that have been adjusted and converted to a standardized scale to enable comparisons of student performance across tests within a subject area and grade level.

Students are placed into performance levels based on where their score falls in the distribution of the PRoPL interim assessment scale scores. PRoPL reports provide visualizations indicating where average scores or a student's score falls within the scale score range.

See the **PRoPL Performance Levels and Score Ranges** document for detailed information about performance levels.

Reporting Categories

PRoPL provides results for the overall content area as well as by reporting category (RC, in the table below). Test questions are aligned to standards which fall within each of the reporting categories.

Reading			
Grade	Reporting Category Name	Reporting Category Label	Reporting Category Report
K - 2	Reading Literature	RC1	Item-level Result
	Reading Foundational	RC2	Item-level Result
	Reading Foundational	RC3	Item-level Result

Math			
Grade	Reporting Category Name	Reporting Category Label	Reporting Category Report
K	Counting and Cardinality	RC1	Item-level Result
	Operations and Algebraic Thinking	RC2	Item-level Result
	Geometry and Measurement	RC3	Item-level Result
	Data and Probability	RC4	Item-level Result
1 - 2	Counting and Cardinality	RC1	Item-level Result
	Operations and Algebraic Thinking	RC2	Item-level Result
	Geometry and Measurement	RC3	Item-level Result
	Data and Probability	RC4	Item-level Result

K-2 PRoPL Reports

There are six key reports available for grades K-2:
- District or School Performance Dashboard
- Program Report
- Performance Report
- Class Report
- Test Report
- Individual Student Report

District or School Performance Dashboard

This dashboard can be used by school and district administrators to view the average scale score of each test. It is also where the **Program Report** is accessed, as well as the **Performance Report** for individual tests.

Accessing the Performance Dashboard

1. Select **Reporting > Performance**.
2. Select the **Program | PRoPL 2024-2025 Gr K-2**.
3. From the Performance Dashboard, you can
   - Click the **Program Report** button to open the **Program Report** or,
   - Click a row to open the **Performance Report** for a specific test.

Program Report

The **Program Report** shows aggregate student performance data for each test. Once two or more interims are completed, you can view data from multiple interims to make comparisons across PRoPL administrations (i.e., Interim 1, Interim 2, Interim 3).

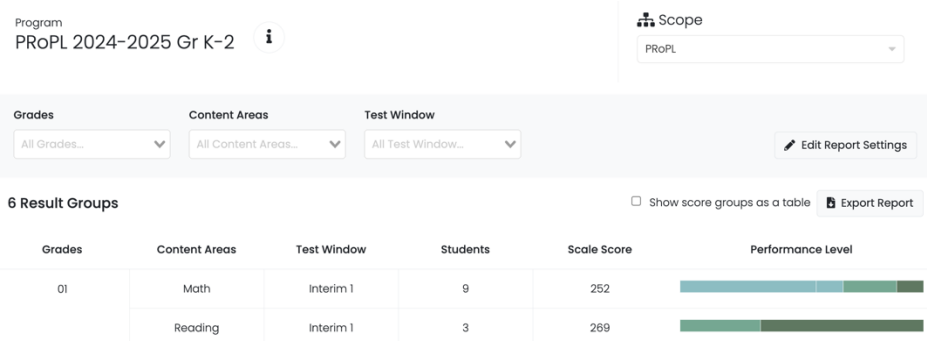

The report can be filtered to include specific grades, content areas, and test windows. At the top right, there is an **Export Report** button.

Performance Report

The **Performance Report** shows student progress and performance on an individual test at the district or school level. A variety of views and filters are available to access data for individual schools and classrooms. The Performance Report includes three tabs:

- **Performance Summary**—This report shows the average scale score and performance levels earned by students on the test. Based on district or school admin status, , administrators can use dropdown options to look at student performance across schools or classes.
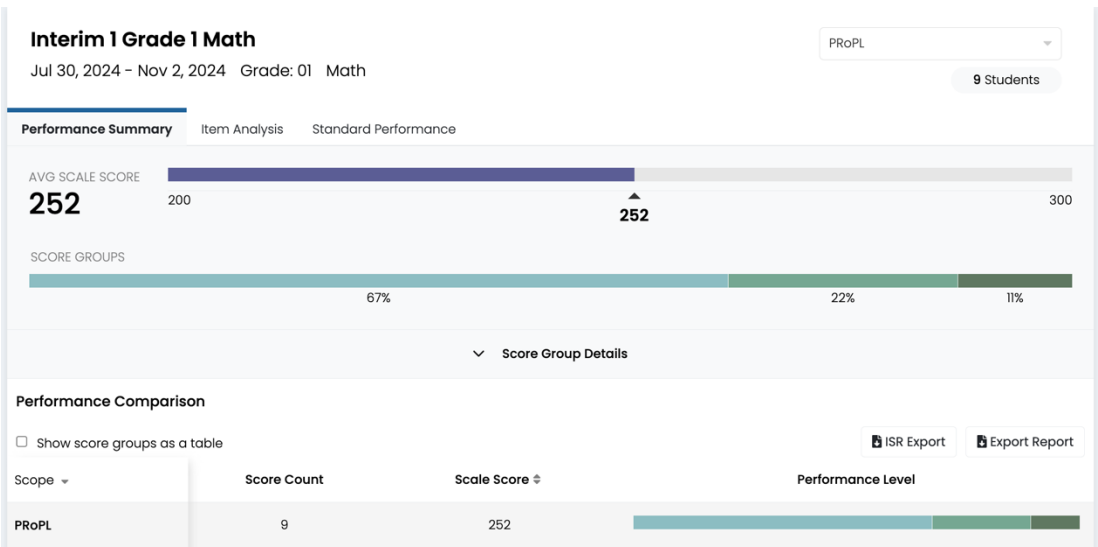

Administrators can also click on an individual school or class to access more detailed information on performance on the test at that location.

- **Item Analysis**— District and school administrators can standards alignment for each item on the test and how well students performed on each item. The reporting category is also included for each item on this report.

By selecting the **Item Performance Comparison** tab, district leaders can compare the relative student performance of a school within their district to the overall district performance by item.

- **Standard Performance**— By selecting Standard Performance, performance by standard can be evaluated. Select "Show aligned items" to see the test items grouped by standard.

Select the **Standard Performance Comparison** tab to see the average score by standard (points achieved/ points possible) across districts.

Teacher Report: Class Report

Teachers access the **Class Report** by selecting a class from the "**My Classes**" page.

There are two views on this report: **Roster** and **Administration**. The **Roster** view shows the class average and individual student scores for each test. Teachers can compare performance between interim administrations (e.g., Interim 1, Interim 2, Interim 3).

The **Administration** view shows aggregated results by class.

Teacher Report: Test Report

Teachers access the **Test Report** by clicking on a test on the **Class Report.**

There are 3 tabs within the **Test Report**: **Performance Summary**, **Item Analysis**, and **Standard Performance.**

- **Performance Summary**— This report shows the class average scale score, performance level distribution, student scale score, and student performance level on the test.
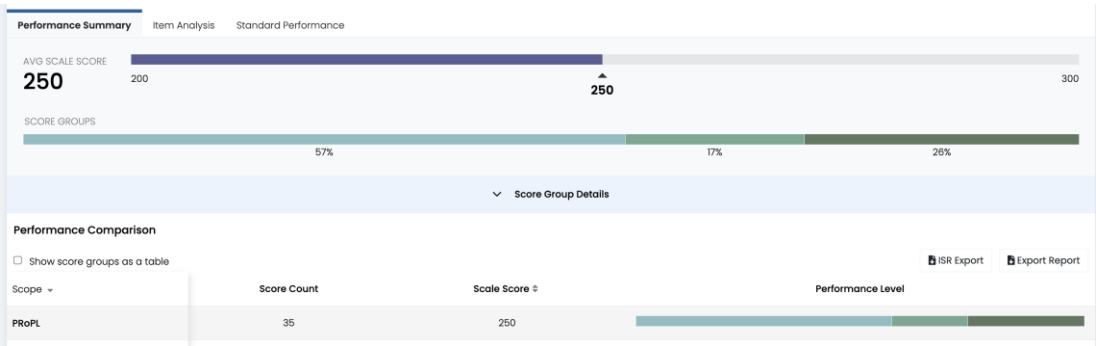

- **Item Analysis**— The Item Analysis shows how students performed on the test by item, the associated standard to which the item is aligned, item type, and reporting category.

From this tab, teachers can select **Class Roster** to see performance by item and student.

Standard ⇕	Performance ⇕	Items Aligned
RF.1.1.a Recognize the distinguishing features of a sentence (e.g., first word, capitalization, ending punctuation).	100%	2
RF.1.2.a Distinguish long from short vowel sounds in spoken single-syllable words.	100%	2
RF.1.3.a Know the spelling-sound correspondences for common consonant digraphs.	50%	1

Family Report: Individual Student Reports

Teachers can click on a student name in the **Class Report** or **Test Report** to access that student's **Individual Student Report** (ISR).

The ISR will show a student's growth or change in performance across interim assessment administrations (i.e., Interim 1, Interim 2, Interim 3), once the student has taken multiple interim assessments. Below is a sample ISR for a grade 2 student.
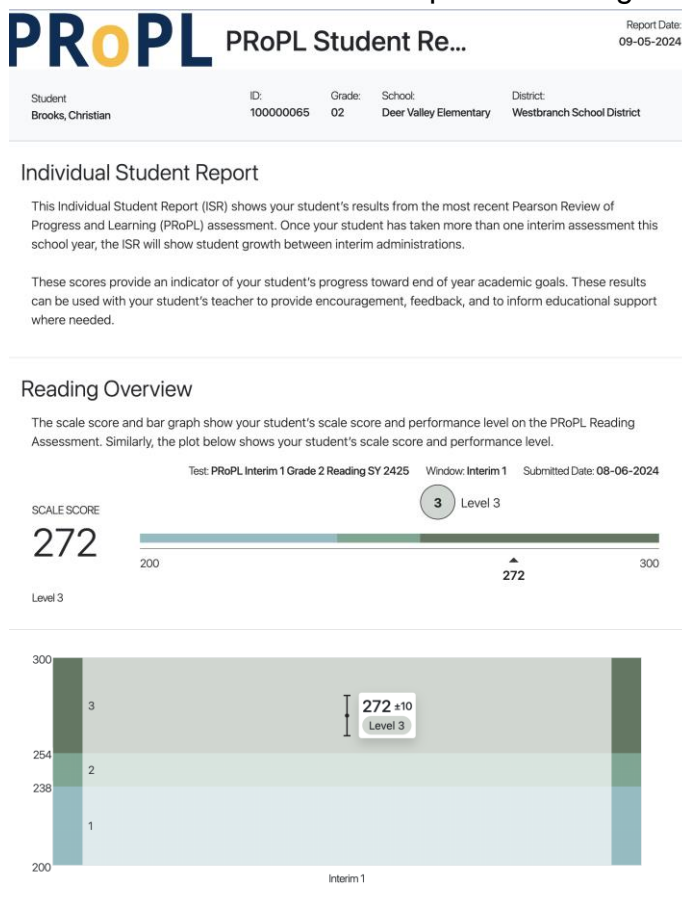

Additional ADAM Reports

ADAM offers additional reports to district and school administrators. These reports are not specific to PRoPL users.

You can read more about the reports on the ADAM support site: https://support.assessment.pearson.com/as/reporting---test-administration-102761844.html.

A brief overview is below.

Progress Report

The Progress Report shows the status of a selected test.

Activity Report

The Activity Report shows the activity on all test administrations over a selected time period.

Key Report Features

The PRoPL reports have several key features to support navigation, interpretation, and use. Before accessing and interpreting the reports, familiarize yourself with some of the functionality.

Exports/Downloads

Reports that contain school, class, or student level information include an export functionality.

Sorting

Sorting arrows are included on reports with multiple columns so that educators can easily group students.
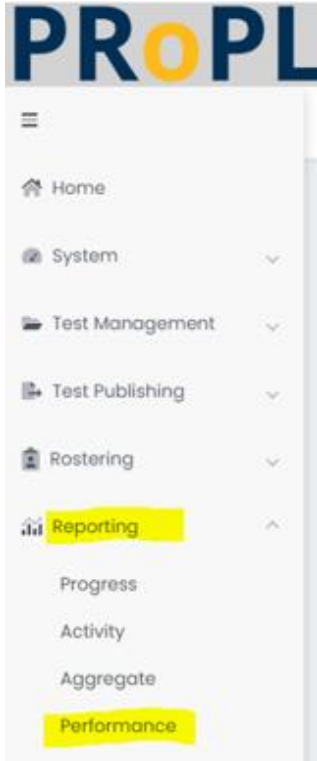

Hovering

Additional information is provided by hovering the cursor over the bar graphs to support interpretation of the data.
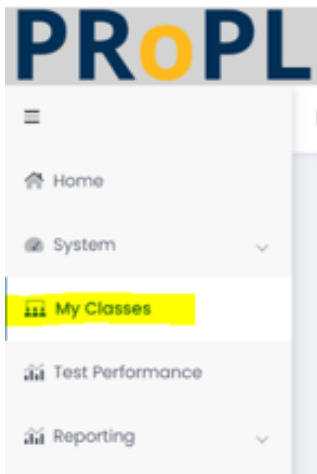

Accessing PRoPL Reports

To access PRoPL reports, users must log in to ADAM. School users are rostered to ADAM via Pearson's Launchpad tool. <u>To log in to ADAM, users should log in to their Launchpad account, and then select "ADAM".</u> Once ADAM is selected, the user will automatically be signed in via SSO.

School and district administrators will access reports by going to "Reporting" in the left navigation menu and selecting "Performance".
